

SWARCO SIGNS

FRONT ACCESS SIGNS

The Front Access Sign by SWARCO Signs has a specific focus on being accessible from the front for upkeep and repairs, which simplifies maintenance procedures. The front access sign plays a key role in enhancing traffic safety, efficiency, and communication by providing drivers with timely and relevant traffic information.

KEY BENEFITS

- Displays any combination of text, symbols, and images
- Clear visibility and color uniformity from any angle with unrivaled contrast ratios
- Emits little to no heat, eliminating the need for cooling, ventilation, and defogging equipment
- Low total cost of ownership through reduced energy consumption and maintenance costs
- Draws 1/10 of the power of other signs
- Eliminates sunlight and headlight glare
- Meets or exceeds NEC and NEMA standards
- 5 year warranty

PRODUCT DESCRIPTION

The industry-leading brilliance and clarity of Front Access Sign derives from its 26.5 to 1 contrast ratio, tight pixel pitch (12-30mm), and 10ms refresh rate that captures 100% of the light emitted. Messages are legible up to 1,200 feet in any condition – including low-angle and direct sunlight.

The Front Access Sign eliminates the need for bulky cooling or defogging equipment as they only draw a tenth of the power when compared to leading competitor's signs and give off little to no heat. Best of all, this contributes to fewer failure points and extends product life.
